PHROMPONG KHAGTES

[CHOPPER]

- Full Stack Developer with over 7 years of experience in software development, system architecture design, and database management.
- Skilled in software testing, debugging, and delivering reliable, high-quality applications.
- Experienced in maintaining systems and integrating new features into existing platforms to align with evolving business requirements.

SKILLS

- TypeScript
- JavaScript
- C#
- SQL
- PHP
- SQL Server
- MySQL
- MongoDB
- Oracle
- PostgreSQL
- Angular
- Node.js
- NestJS
- React.js
- ASP.NET
- Next.js
- React Native
- Mapbox GL
- Tailwind CSS
- Git
- Ant Design
- Chart.js
- Jest
- Mocha
- Redis
- RabbitMQ

EXPERIENCE

Jul 2024 - Present

Senior Full Stack Developer
Bedrock Analytics Co., Ltd.

City Digital Data Platform: CDDP (GIS Platform for Local Government)

- Build a water management system (loss analysis, smart meters, DMA, valves, pressure, flow meters) with Mapbox GL layers and dynamic filtering.
- Develop an end-to-end veterinary module, including pet registration, vaccine tracking, and stray animal management with map integration and S3 image uploads.
- Build rainfall and weather analytics using Chart.js (15-min, hourly, daily, monthly) with data export functionality.
- Implement welfare management modules (elderly, disabled, newborns, dependent patients) with search, form handling, and status tracking.
- Develop backend services using NestJS and TypeORM with advanced PostgreSQL queries (CTEs, window functions, GeoJSON).
- Build garbage collection map layers with zone filtering, payment tracking, and fee analytics.
- Develop frontend applications using React 18, TypeScript, Ant Design, and Tailwind CSS with TanStack React Query for data fetching.
- Write unit tests with Jest and Vitest, maintain Docker security updates, and manage database migrations.

Sep 2023 - Jun 2024

Senior Full Stack Developer
TN Incorporation limited.

Sales system : Government Savings Bank

- Developed backend microservices using Node.js, RabbitMQ, MongoDB, and SQL Server.
- Designed RESTful APIs and database schemas.
- Implemented sales pipeline features, including lead tracking, target management, and reporting.

ADDITIONAL PROJECTS
(Full Stack Developer)

Schedule training management system : SEAC

- Developed RESTful APIs using ASP.NET and MySQL.
- Implemented course registration, seat availability tracking, and multi-trainer scheduling.
- Designed database schemas to support multi-course scheduling workflows.

CCTV : AI FiRST

- Developed frontend applications using Angular and backend services using ASP.NET with MySQL.
- Integrated AI-powered camera systems (Ashura, Yitu) for real-time video analytics.
- Implemented face detection and recognition features for surveillance monitoring.

Smart city on cloud : AI FiRST

- Developed backend services using Node.js and MySQL.
- Integrated cloud-based AI services (Clarify, Ashura) for smart city data processing.
- Implemented APIs for IoT data collection and real-time monitoring dashboards.

Electronic Right Offering : Asia wealth securities company limited

- Developed RESTful APIs using Node.js and MongoDB.
- Built a React.js frontend for an electronic rights offering portal.
- Implemented shareholder rights subscription workflows and transaction management.

Shipper System : Gulf Energy Development Public Company Limited

- Developed backend services using NestJS and MySQL.
- Built a React.js frontend for a shipment management interface.
- Implemented shipment tracking, delivery scheduling, and logistics reporting features.

Medilance : Healthcare Freelance Marketplace

- Develop mobile app using React Native, Expo, and TypeScript with Zustand for state management.
- Build interactive UI with React Native Paper, Bottom Sheet, and form handling with Formik/Yup.
- Implement Google Maps integration with location-based job search and GPS check-in features.

Feb 2020 - Aug 2023

Full Stack Developer
PTT Digital Solutions Co.Ltd.

NEW POS : PTT Oil and Retail Business PCL (OR)

- Developed backend microservices using Node.js, .NET, RabbitMQ, and Redis.
- Built a POS frontend interface using React.js.
- Designed database schemas and system workflows for POS operations.
- Wrote functional test scripts using Mocha and conducted code reviews.

Jul 2019 - Jan 2020

Programmer
Fusion Solution Co.,Ltd.

Cigna anywhere : Cigna Insurance PCL

- Developed RESTful APIs using ASP.NET.
- Designed database schemas and system workflows.
- Implemented insurance policy management and claims processing features.

Jun 2018 - Jun 2019

System Programmer
C.S.I. GROUP

Inventory management system : Panasonic Thailand

- Developed a full-stack web application using ASP.NET, SQL Server, and Stored Procedures.
- Implemented inventory tracking features (stock-in, stock-out, adjustments) with Crystal Reports.

Online request system : Yip In Tsoi Co., LTD.

- Developed a full-stack web application using ASP.NET, SQL Server, and Stored Procedures.
- Implemented request submission, approval workflows, and status tracking.

Product Line system : Teijin Polyester (Thailand) Limited.

- Developed a full-stack web application using ASP.NET, SQL Server, and Stored Procedures.
- Implemented production line monitoring and performance reporting features.
